**WILL PLUNGE INTO WAR  
WITH CLEAR CONSCIENCE**

"Every Briton Imbued With  
Manhood, Will Hear News  
With Relief."

London, Aug. 3.—Changing from its  
hitherto exceedingly moderate, con-  
ciliatory and unwarlike attitude to-  
wards the present crisis in Europe, the  
Daily Telegraph, in a double headed  
editorial, says today:

"Today the people of the British  
empire will learn, with one universal  
thrill of passionate indignation of an  
act of deliberate outrage that has been  
committed against this country by  
Germany—that we have been wantonly  
challenged to throw ourselves instantly  
to war."

"The seizure of two British ships in  
the Kiel canal is, in all circumstances,  
as brutal an act of plain aggression as  
was ever committed by one power upon  
another."

"Today the world will hear what  
answer, the British government is to  
give to that insult. The natural  
answer will not be open to any doubt  
that the power which constituted itself  
the mad dog of the European crisis will  
have it, she shall have it, in full  
measure."

"No nation ever went into war with  
better heart or clearer conscience than  
Great Britain goes now."

**BILL TO REMOVE LIMIT  
OF CURRENCY ISSUE IS  
PASSED BY LOWER HOUSE**

Washington, Aug. 3.—Restrictions  
which limit the issue of currency un-  
der the Aldrich-Vreeland law to \$500,-  
000 would be removed by an amend-  
ment to the banking act agreed upon  
today by the senate and house banking  
committees. As an amendment to a  
bill passed the house Saturday remov-  
ing other restrictions of the law in the  
present crisis, both houses of congress  
today are expected to leave the matter  
of the issue of such currency in the  
discretion of the secretary of the  
treasury.

The amendment also would extend  
the issue of currency to state banks  
and trust companies which had joined  
the federal reserve system or agreed  
to do so.

**PRESIDENT WILSON ASKS  
QUARTER MILLION FOR  
DISTRESSED AMERICANS**

Washington, Aug. 3.—President Wil-  
son today sent a special message to  
congress asking immediate appropriation  
of \$25,000 for relief of distressed  
Americans abroad.

**GERMAN FLEET REPORTED  
HAVING PASSED THROUGH  
KIEL CANAL GOING WEST**

London, Aug. 3.—It is reported the German fleet has  
passed through the Kiel canal and is steaming in a westerly  
direction.

Despatches from all the British colonies report the pro-  
clamation of precautionary measures of various kinds, principal-  
ly affecting the harbors and shipping.

## PRACTICALLY ALL EUROPE IS NOW MASSING TOGETHER FULL FIGHTING STRENGTH FOR WAR

German troops invaded Russian Po-  
land today and occupied the town of  
Kalisz.

The German army violated the neu-  
trality of Belgium, of which country  
Great Britain is protector. German  
troops occupied the Belgian town of  
Arlon.

Belgium has previously declared an  
ultimatum offering a certain agreement  
with Germany in case Belgium agreed  
to facilitate the movements of the Ger-  
man army.

So grave is the situation regarded  
that a coalition government of all  
parties probably will be formed in the  
British isles, while it is generally  
expected that Field Marshal Earl Kit-

chenor was to be appointed minister of  
war.

Dowager Empress Maria of Russia  
was stopped by the Germans in Berlin  
on her way to Russia and told to re-  
turn to London or go to Denmark.

The Russian naval port of Lbaou, on  
the Baltic, was bombarded by a Ger-  
man cruiser, which was also engaged  
with a Russian cruiser. The German  
fleet was reported sailing into the  
North Sea, where the British fleet is  
said to be concentrated.

The German ambassador had not left  
Paris today.

Fighting between Russian and Ger-  
man cavalry patrols on the frontier  
resulted in slight losses.

French officers are reported to have  
attempted to cross the Dutch frontier  
into Germany, but unsuccessfully.

French airmen are said to have made  
daring flights over German territory.  
German cavalry is reported to have  
crossed the French frontier near Bel-  
fort and tried to commandeer horses.

Martial law was proclaimed through-  
out France, where the mobilization and  
concentration of the various armies  
have been carried out satisfactorily.

The German authorities accuse the  
French of violating neutrality and of  
crossing the frontiers before the de-  
claration of war.

Neutral Luxembourg is occupied by  
100,000 German troops.

the country in the face of the aggres-  
sive attitude of Germany which is now  
clearly manifested. All the museums  
and galleries in Paris have been closed,  
the various staffs having gone to the  
war.

Precautions for Food.

All possible measures have been taken  
to insure that Paris will not lack  
for food. Special trains have been re-  
served for the transportation of food  
stuffs, particularly military. In the  
event of the home supply becoming in-  
adequate, a decree suspending the pro-  
hibition on the importation of fresh  
meat will appear in the official gazette  
tomorrow, thus insuring large sup-  
plies from Argentina and other parts  
of the world in the near future.

Severe regulations will be rigorously  
applied against persons attempting  
to profit in the present state of af-  
fairs by increasing the price of neces-  
saries of life.

Attempt to Cross

Coblentz, Germany, Aug. 2.—A party  
of 80 French officers dressing in Prus-  
sian uniforms attempted yesterday to  
cross the German frontier in automo-  
biles near Walbeck, on the Dutch  
frontier to the west of Geldern. The  
attempt was unsuccessful.

German Make Raid

London, Aug. 3.—German cavalry  
raided the French frontier today, near  
the fortress of Belfort and attempted  
to commandeer horses, according to  
despatches from Paris. German patrols  
also twice attacked Jemchery, near  
Belfort.

Protect Against Aircraft

Brussels, Aug. 3.—All the French  
regiments at Sedan are reported to have  
been dispatched toward Nancy, a short  
distance from the German border. Per-  
sons arriving here from Cologne say  
that the Germans have placed paid  
fire guns on the terrace of the hotel  
Hansin in that city. The travellers  
believe the guns are intended for use  
against hostile aeroplanes.

Collision Near Belfort

Belfort, France, Aug. 3.—A collision  
between French and German border  
patrols occurred today near Belfort and  
at Jemchery to the southwest. A body  
of German cavalry advanced to Sures-  
southeast of Belfort and seized horses,  
which had been requisitioned by the  
military.

100,000 Germans in Luxembourg

Brussels, Aug. 3.—It is estimated  
100,000 German soldiers have occupied  
the territory of the Duchy of Luxem-  
bourg and are massed along the French  
frontier.

Shootings Are Reported

London, Aug. 3.—Telegrams from the  
chief of the German general staff re-  
ported that the German army had

## Wild Cheering by Members Greets Remark that Answer of Germany was too Narrow

**Reads Telegram From King of Belgium Appealing for Diplomatic Intervention—"It Will Be  
Seen How Genuinely and Wholeheartedly We Have Made Efforts  
To Preserve Peace."**

### ENGLAND COULD ASSIST FRANCE BY NEUTRALITY

**So Declares Dr. Von Kuhlmann  
Counselor of the German  
Embassy at London.**

**COULD GUARD PORTS OF  
BELGIUM AND HOLLAND  
Could Render Maximum As-  
sistance and Greater Than  
By Going to War.**

London, Aug. 3.—Dr. Von Kuhlmann,  
counselor of the German embassy here  
today issued a remarkable appeal  
for the neutrality of England in the  
European turmoil. It said: "The main-  
tenance of British neutrality would in  
no way injure France. On the con-  
trary it might be argued that by re-  
maining neutral Great Britain could  
give France exactly as much strategic  
assistance and a good deal more effec-  
tive diplomatic help as, according to  
all reliable information, there is no in-  
dication of sending British troops to the  
continent, and as a few British divi-  
sions, considering the enormous num-  
bers engaged could hardly alter the  
balance of power."

"All England can do for France is  
to protect her northern coast from in-  
vasion and prevent the neutral ports  
of Belgium and Holland being used as  
bases for armed aggression against  
France."

"Germany would be disposed to give  
understanding that she would not at-  
tempt to cross the Dutch frontier into  
France, where the mobilization and  
concentration of the various armies  
have been carried out satisfactorily."

"Thus England, without going to war  
herself, could render France the maxi-  
mum of assistance she could give her  
by going to war."

"That England as a neutral power,  
maintaining an armed neutrality, would  
diplomatically be a greater asset  
for France for the termination of hosti-  
lities at an early moment, than if she  
herself were involved in the war is self-  
evident."

**SERVICES ARE SHOT  
FOR REFUSING TO JOIN  
THE RUSSIAN FORCES**

London, Aug. 3.—Hon. Hugh Suther-  
land of Wimpole passed three startling  
days in returning from Vienna im-  
mediately after the war was declared. He  
was the only Canadian in that country  
and delayed leaving owing to business.

He walked two miles to the German  
frontier and met two before he  
could board a train for Belgium. It  
was impossible to use paper money, as  
a party of Englishmen clubbed together  
to get breakfast, the last served.

Every seat was taken in the train  
from Vienna. Hundreds struggled for  
standing room and the usual palatial  
cars of the Orient express were taken  
off at the first stop.

Cattle trucks were used to do the  
three-day trip. Near the border where  
the train was standing at a station he  
saw four British shot by Austrian  
officers for refusing to join the Aus-  
trians. Every few hours all the  
passengers were commanded to lie in  
the cars which were taken for troops.

He changed cars 10 times in one night.

**TELEGRAPH SERVICE  
UNDER CENSORSHIP IF  
ENGLAND DECLARES WAR**

Ottawa, Ont., Aug. 3.—If Britain de-  
clares war the government will at once  
establish a censorship over the tele-  
graphic service of the dominion. The  
department of naval service will take  
charge of the wireless stations, and  
while the department of militia will  
establish a censorship over the land  
service. All messages passing  
from Canada will have to have an of-  
ficial government stamp indicating  
that they have passed censorship.

**BRITAIN MUST GUARD  
INTEGRITY OF BELGIUM**

London, Aug. 3.—Sir Edward Grey  
announced today that a telegram from the King  
of the Belgians made an supreme to  
Great Britain, safeguarding the in-  
tegrity of Belgium.

London, Aug. 3.—Sir Edward Grey requested the house of  
commons to approach the consideration of the European crisis from  
the point of view of British interests, British honor and British obli-  
gations.

The foreign secretary said the house was free to decide what  
the British attitude should be.

Sir Edward Grey again requested the house to deal with the  
issue before it without passion and he added: "When the documents  
are made public it will be seen how genuinely and wholeheartedly  
we have made efforts to preserve the peace."

Dealing with the question of Great Britain's obligations, Sir Ed-  
ward said: "Up to yesterday we had given no promise of attitude  
other than diplomatic support. I was asked at the time of the Alge-  
ciras crisis if we would give armed support and I said I could promise  
nothing to any foreign power unless I tried the wholehearted  
support of public opinion."

"I gave no promise but I told both the French and German am-  
bassadors that if war was forced on France, public opinion in the  
British isles would rally to France."

Towards the close of his speech Sir Edward said: "We must be  
prepared and we are prepared to face the consequence of using all  
our strength at any moment, we know not how soon, in order to  
defend ourselves."

Andrew Bonar Law, leader of the opposition, warmly support-  
ed the government and referred amid cheers to the pledges of support  
received from the British dominions.

Wild cheering from all parts of the house greeted John E. Red-  
mond, the nationalist leader, when he assured the government that  
every soldier in Ireland might be withdrawn tomorrow and the coast  
of Ireland would be defended against invasion by her armed sons,  
the Catholics of the south and the protestants of Ulster.

James Hanney Macdonald, socialist  
and labor member, declared he was not  
persuaded that Great Britain was in  
danger for her honor involved. He  
was convinced she should have re-  
mained neutral.

The house adjourned until 7 o'clock  
for a consultation between the leaders  
of all the parties.

Sir Edward Grey added that if a  
foreign fleet came down the English  
channel to bombard the French coast  
"We could not stand aside."

The foreign secretary stated that the  
British fleet had been mobilized and  
the mobilization of the British army  
was taking place but that no aggres-  
sion had yet been made by the British  
government to send an expedition  
abroad.

He continued: "The French fleet is  
in the Mediterranean and the northern  
coasts of France are defenseless. If  
foreign fleet engaged in war against  
France should come down and battle  
these defenseless coasts we could not  
stand aside."

"We felt strongly that France was  
entitled to know at once whether in the  
event of an attack on her unprotected  
coasts she could rely on our support."

"I gave the engagement to the French  
ambassador last night that if the Ger-  
man fleet goes down the English chan-  
nel or into the North sea to attack  
French shipping or the French coast,  
the British fleet will give all the pro-  
tection in its power."

"That answer is subject to the ap-  
proval of parliament. It is not a  
declaration of war."

"I understand that Germany would  
be prepared, if we would pledge our-  
selves to neutrality, to agree that its  
fleet would not attack the northern  
coast of France."

"That is far too narrow an engage-  
ment."

"The house broke out into cheers at  
this remark."

Sir Edward Grey then read a tele-  
gram from the King of the Belgians  
to King George making a supreme appeal  
for diplomatic intervention, to safeguard  
the independence of Belgium.

**OUTBREAK OF WAR  
GERMANY AND FRANCE  
AWAITED ANY MOMENT**

Brussels, Aug. 3.—An official commu-  
nication published here today concern-  
ing the beginning of the war says: "In  
consequence of a Russian attack on  
German territory, Germany is in a state  
of war with Russia."

"The French reply to Germany's note  
has been received in the meantime and  
is of an unsatisfactory nature. In ad-  
dition, France has ordered the mobilization  
of her army, so that the out-  
break of war between Germany and  
France must be awaited at any moment."

**RAILWAY MEN'S WAGE  
DISPUTE TO GO TO  
BOARD OF ARBITRATION**

Washington, Aug. 3.—Managers of  
the western railways have accepted ar-  
bitration of the wage dispute with their  
engineers and firemen.

**CANADIAN CRUISER RAINBOW  
LIES BETWEEN GERMAN SHIP  
AND HER SUPPLY OF COAL**

Vancouver, Aug. 3.—The Canadian cruiser Rainbow lay  
in the Royal Roads, Victoria, today with her decks cleared for  
action, awaiting advices concerning the German cruiser Leipzig  
reported somewhere off Cape Flattery. The Leipzig is faster  
than the Rainbow by three knots, but the Canadian warship has  
the better armament and lies between the Leipzig and her near-  
est coal supply. The German cruiser cannot leave for the China  
station for which she is bound without replenishing her bunkers.

# Germany and France Each Seek to Throw on Other Onus of Beginning War

**Four Great Powers Now Engaged in Actual Warfare, But Extraordinary Condition Prevails That Two of Them, Germany and France, Have Not Declared War Against Each Other and Have Not Severed Diplomatic Relations—Vieing With Each Other in Protest- ing Desire to Maintain Peace—Servia, in General Conflict, is Lost Sight of—Tourists of All Nationalities Are Stranded in France and Germany.**

London, August 3.—Four great powers of Europe, Austria-Hungary, Russia, France and Germany, are now engaged in actual warfare, but the extraordinary condition obtains that two of them, Germany and France, have not yet declared war against each other, as far as is known here, but have not even severed diplomatic relations, despite the fact that Germany's ultimatum to France has either been ignored or rejected.

The explanation of this would appear to be that Germany and France are each seeking to throw on the other the onus of beginning the war. In fact, while the nations of Europe are flying at each other's throats, they are vying with each other in protesting their desire to maintain peace, and they repudiate the responsibility for plunging the world into bloodshed.

In this curious situation, France, according to British opinion, has the strongest justification. She certainly was the latest to mobilize and seems to have taken the greatest precautions to avoid further complications. On the other part Germany, in addition to invading French territory without a formal declaration of war, has violated the neutrality of Luxembourg and declines to give any undertaking to respect Belgian neutrality.

## Something Tremendous.

The efforts of the British ambassador to secure this undertaking have been wasted. It is difficult to see how Great Britain can avoid being drawn into the conflict to protect Belgian and Dutch neutrality, and on this point Premier Asquith's official announcement in parliament is awaited with intense anxiety. The British public being under any illusion as to the gravity of the crisis which transcends anything in their experience.

The least observant man in London today could not fail to be impressed with the fact that something tremendous was happening. Short of a formal mobilization the British government is taking all necessary steps to meet the situation unprecedented in the nation's history.

## Preparing to Fight

This Sunday has been a day of the greatest suspense in British history. For hours the cabinet was in council at Whitehall, and the whole country believed it to be the question of whether England should take up arms in support of her partners of the Triple Entente.

No statement was made officially concerning the cabinet's deliberations, except that no announcement in the house Monday, and that the cabinet would hold another meeting in the morning. The government took three measures for defence today, none of them consistent with the policy of remaining out of the conflict, if that should be its policy.

## Naval Reserve Called.

The naval reserves and naval marine pensioners were called out by proclamation; the territories who had just assembled at the training camps for annual practice, were ordered back to their headquarters; the home secretary prohibited aerial flights over the entire kingdom and territorial waters, except by military craft.

All these measures are purely defensive. Great Britain would feel obliged to take them with a great war raging close to her shores, even if there was no question of her participation.

Censors took charge of all cable office in the kingdom tonight. All code messages were prohibited, even to Australia. Telephone communication with the continent was entirely stopped. The Brussels telephone, which was the last line working, is silent tonight.

## Suspend Bank Act.

The king issued a proclamation declaring a moratorium, or legal delay allowed for meeting obligations for a month, and suspension of the banking act tomorrow appears assured. A rise in the price of foodstuffs is expected tomorrow, though the board of trade has issued a reassuring statement that there is a wheat supply for four months in the country.

The newspapers of England are confronted with the possibility of a paper famine. Most of them depend on the Scandinavian countries for stocks, have only a few weeks' stores in the country, and shipping in the North sea is paralyzed.

## Speak for Peace

The peace movement finds but little public response. The Archbishop of Canterbury and the Bishop of London spoke for peace today. A number of Cambridge professors have issued a manifesto deploring the possibility of war with Germany, while another manifesto issued from influential quarters, calling Premier Asquith's recent statement that Great Britain had no understanding with France and Russia which would compel her to join with them in war.

The Socialists and a section of the labor union men are strong for peace. Peace meetings were held today in Trafalgar Square and Hyde Park. Kier Hardie exhorted the workers to inaugurate a general strike for peace. Lord Charles Beresford has issued a letter calling upon the country to "pay a debt of honor to France." He declares that Great Britain would forever be disgraced in the eyes of Europe if she failed.

## Naval Reserve Leave.

The railway stations are filled with naval reservists in bright new uniforms, entraining for the coast stations. Officials raided the streets today and commandeered the latest and most powerful motor vehicles, turning out the passengers, and ordering the drivers to proceed to naval and military headquarters, where the cars were to be used for military and red cross purposes. A great number of reservists are employed on motor buses and traffic, as a consequence has been greatly curtailed.

## Bank Holiday Welcomed

The business world looks forward to this week's developments with the greatest anxiety. Monday is a banking holiday fortunately, and thus the banks will have time to make arrangements against a possible siege on Tuesday. There was a scene of great enthusiasm outside Buckingham Palace tonight. A crowd of five or six thousand persons gathered before the palace and sang the national anthem, and called for King George who, with Queen Mary, appeared on a balcony and bowed in response to cheers for him and for France. A number of demonstrations were formed late tonight, and paraded the streets singing and cheering.

## News is Vague.

News of the progress of hostilities is vague and conflicting owing to the severe censorship everywhere imposed. It is alleged that the Germans poured 100,000 men into Luxembourg, who will concentrate on the French frontier. Actual German invasions of France occurred at Nancy and Longwy, while a battle is reported to have taken place at Nancy.

From the Russo-German frontier come reports that Russians invaded Germany near Schwiden. Servia Lost Sight Of.

Servia, the original cause of the upheaval, seems to have been lost sight of. The Austrians, according to reports from Nish, have virtually ceased operations against Servia, in order to meet the danger in Bulgaria.

Montenegro has mobilized to assist Servia and is reported to be combating in Dalmatia. Various rumors are current of the naval movements, but none of them are reliable.

Tourists of all nationalities are stranded in France and Germany owing to the seizure by the governments of all the railways for military purposes. Those who have succeeded in reaching England tell moving stories of the anxious times passed by them and the difficulties and inconveniences of getting here.

# BELGIUM REFUSES OFFER OF ENTENTE

London, Aug. 3.—A Brussels dispatch to the Exchange Telegraph says the Belgian cabinet's response to the German note, offering an entente if Belgium would facilitate the movement of German troops has been given and is the nature of a formal refusal.

London, Aug. 3.—Germany has sent an ultimatum to Belgium in which she offers an entente, provided Belgium facilitates the movements of German troops.

London, Aug. 3.—A dispatch to the Daily Telegraph from Paris today says German troops have taken possession of the Belgium town of Arlon.

# AIRMAN DIRECTS FIGHTING OVER HEADS OF ENEMY

Looks Like Giant Bird as He Lights Up Army's Position.

# DESTROYS ZEPPELIN BUT LOSES HIS LIFE

Air Squadron of Eight Aero-planes Appears Over Paris Moves Toward Germany.

Vienna, Aug. 3.—During the fight between the Austrians and Servians for the railroad bridge at Semlin, leading to Belgrade which was waged in pitch darkness, an Austro-Hungarian aeroplane flew over the Servians, lighting up the enemy's position.

It looked like a giant bird above the heads of the enemy and gave directions showing where to fire. Officers of the staff stated that the Serbs broke the Geneva convention by shooting at trolleys conveying the wounded under protection of the Red Cross flag.

The same officer describing the fight said: "For a short time the Servian troops retired to a position at the bend of the Save river and return our fire; but our machine guns made great gaps in their ranks and they were then the positioners began to have an effect on the bridge, they fled precipitately. Servian losses were very heavy."

Paris, Aug. 3.—A Zepplin alrship crossed the frontier Saturday night and hovered over Toul. A French airman went up and succeeded in destroying it, losing his life in the exploit.

At 6 o'clock Sunday morning, while a great throng of recruits were rushing to join their regiments, an air squadron of eight aeroplanes flying in close formation appeared over the city and quickly disappeared in the direction of the German frontier. They created the wildest excitement. Searchlights from the Eiffel tower and the roof of the automobile club place de Concord, are sweeping the sky for possible Zepplins.

The Standard publisher's report that the French aviator, Roland Garros, met and engaged a German alrship in mid-air and rammed and destroyed it. The Standard fails to give the source of the story.

# GERMAN LINER IS RECALLED TO NEW YORK HARBOR

Others Also Fear to Cross—Three Returned to Port Yesterday.

New York, Aug. 3.—The third arrival of the day of German liners recalled because of the war situation was the steamer Friedrich Der Grosse on Wednesday last with more than 50 passengers and a cargo said to be worth four million dollars for Bremen.

On Friday morning orders were received by Captain Fritz to turn about and head for New York. He immediately reversed his course and steamed westward avoiding all other craft which were sighted. The steamer ran at night without running lights and all the necessary lights were shielded so that they could not be seen from any distance.

The Hamburg-American liner President Grant and the North German Lloyd steamer Grosse Kurfurst returned to port this morning.

# CANADIAN NORTHERN WILL TAKE MEN WHERE NEEDED

Ottawa, Aug. 3.—Sir Donald Mann, vice president of the Canadian Northern railway has offered to take charge of the transportation work in the event of Canadian forces going to the aid of Great Britain in the war in Europe.

Donahue's offer, made to Col. Sam Hughes, minister of militia, is to go with the forces wherever they may be dispatched.

# ARGENTINE GOVERNMENT SUSPENDS OBLIGATIONS OF COMMERCE FOR WEEK

Buenos Ayres, Aug. 3.—In view of the European situation, which, it is believed, is bound to have a marvellous influence on the economic situation in this country, the government has issued a decree suspending the operations of banks and the obligations of commerce until August 10.

St. Paul issues nontransferable, licenses to dealers in cigarettes.

# European Countries Now at War or Preparing Could Put Huge Numbers of Men and Ships in Fighting Line

The impending great European war has set people talking about the probable length of time each nation can keep its army or navy at fighting strength and how each will stand up against its foe. The method generally taken to arrive at a conclusion regarding these ends is to compare the comparative numbers and size of the ships and the number of men. According to the latest reliable information the following represents the fighting strength on land and sea of the several nations now engaged, or about to be engaged, in the titanic struggle:

# MOST TERRIBLE WAR SINCE THE FALL OF ROME

London Times Say Germany May Assault England Without Declaring War.

London, Aug. 3.—The Times in an editorial this morning says: "Recent events mean that Europe is to be the scene of the most terrible war she has witnessed since the fall of the Roman empire."

The Times proceeds to throw the blame upon Germany, saying: "Germany could have stayed the peace had she chosen to speak in Vienna as she speaks when she is in earnest. She preferred to make demands in St. Petersburg and Paris, which no government could entertain. She has lived up to the worst principles of the Frederic tradition, which degrades all obligations of right and wrong at the bidding of immediate self interest. She has resolved to crush France and trample on the rights of those who stand in her way. Yesterday it was Luxembourg; today it may be England she will assault without declaring war."

Another procession went to the Winter palace, and Emperor Nicholas, holding the hand of the empress, came out on a balcony and greeted the crowd. The empress, who was dressed in white, waved her handkerchief and drew kisses from the throng.

The British colony is anxiously awaiting a definite announcement of Great Britain's attitude in the crisis. The workmen are giving one day's wages weekly for the benefit of the wives of the reservists.

# CHURCHES ARE PACKED, CONGREGATIONS PRAY FOR SUCCESS OF RUSSIAN ARMS

St. Petersburg, Aug. 3.—All the churches in St. Petersburg were packed yesterday, the congregations praying for the success of the Russian arms.

There was a monster procession to the Kazan cathedral. In the procession was the gorgeously jeweled amulet, known as the "wings of the eagle," which the tsar carried in the campaign against Napoleon.

Another procession went to the Winter palace, and Emperor Nicholas, holding the hand of the empress, came out on a balcony and greeted the crowd. The empress, who was dressed in white, waved her handkerchief and drew kisses from the throng.

# CROWDS SEETHING IN LONDON STREETS

For First Time in Their History the London Newspapers Issue Sunday Editions—Britain Taking All Necessary Steps to Protect Herself, But Ministers Acting Cautiously—Government Will Take Over Lloyds and Guarantee English Shipping at Four Per Cent.

London, Aug. 3.—The British censorship of news was established last night. For the first time, London is showing general excitement over the war crisis. The cabinet has held two lengthy sessions on the question of British action and it is assumed that in view of Germany's attitude toward Belgium, whose neutrality was guaranteed by the treaty of London in 1865 and her reported refusal to respect the neutrality of Belgium, Britain must participate.

Public opinion is prepared for such a course if it be regarded as inevitable, though it cannot be said there is anything resembling a war fever.

Seething Excitement. Huge holiday crowds in the streets were kept seething with excitement by the incessant issues of extras by the Times, Daily Mail, and Daily Telegraph, which for the first time in their history, were published on a Sunday.

When the cabinet met yesterday a vast crowd gathered in Downing street, attracted by the gravity of the occasion and by the suggestion published in the Times, that the ministers were not all in accord on the line to be pursued.

This was denied by one minister, who said that whatever individual opinions were being thrashed out, the cabinet would act in unison.

An anti-war demonstration in Trafalgar Square yesterday had only a few hundreds, the mass of people passing along almost ignoring it.

Quietly, but in a perfectly orderly manner, Britain is taking all necessary steps to protect herself.

Troop trains, fully laden with men, stores and ammunition, have been running to strategic points and reserves have been called out.

There is no doubt that the British navy is ready. England looks to be ready to play perhaps the decisive part in the struggle, if she is drawn into it.

# WEALTHY BOY LOSES FIGHT TO WED HIS CHOICE

Court Refuses to Sanction Appointment of Guardian Who Would Permit Match.

Los Angeles, Aug. 3.—Lester Crawford, known as the "marriage man" youth of Pasadena, has lost his fight to secure the appointment of a guardian who would consent to his marrying Miss Laura Koppe, a wealthy girl of that city.

"You have only to wait two years to arrive at your majority; then you can do as you please; but until then I tell you the most beautiful love story in the world—the narrative of a love-estricken young man who waited 14 long years to wed the maid of his heart."

"This story ought to appeal to you, as your heart is set upon becoming a missionary and you are probably better acquainted with Biblical lore than the court."

"Long ago, in far away Palestine, there was an impetuous young man, Jacob. He was destined to become a chieftain of his people; one of the striking figures in world history."

"He loved Rachel, a young woman of rare beauty; his heart was set upon marrying her; but the girl's father made Jacob wait seven long years, then, when the time appointed for the wedding came, the girl's father repented one of the most awful losses in all history; he summoned a substitute, Leah, Rachel's sister."

"Jacob, with unswerving fidelity, carried away Rachel's image in his heart. Seven more years went by and at last Rachel and Jacob were united. 'That, young man, is the most beautiful romance. Compared to Jacob you will have an easy time.'"

"The decision brought to an end the peculiar fight of young Crawford to have Mrs. Laura Partlett of San Diego appointed his guardian. Mrs. Partlett admitted that if so appointed she would grant young Crawford her immediate consent to marry Miss Koppe and allow them to spend their honeymoon in the missionary fields of Japan."

"A dramatic scene followed the ruling. Miss Koppe, her eyes swimming in tears, walked to the bar of the court and extended a hand to the youth who to win her love had twice been arrested, put in a madhouse and who had resisted, according to his statement on the witness stand, a bribe of \$50,000 to give her up."

"Good-bye, dear," she said, "the words came from the voice of the girl broke with tears."

"For two years," the boys answered, "in a quivering voice. Miss Koppe bowed her head."

"I won't forget! I'll never care for any other girl but you; you've married the day I'll be harnessed to assure her."

Young Crawford turned to meet his father, Francis E. Crawford, but it was only a temporary victory. He got home with you tonight, I'll stay here until I'm of age and help you spend your money. Remember all those good times you promised me. Good-bye, we are not going to make a fortune Laura, though. But I'll obey you and promise I will not run away again."

## MANITOBA PREPARES TO ORGANIZE AND EQUIP BATTALION INFANTRY

Winnipeg, Aug. 3.—Premier Roblin received the city late last night from Minaki, having been recalled from a week-end visit to that resort, and hurried direct to the government house where the council was held. Sir Douglas Cameron and Col. S. B. Steele were present.

In an interview, Sir Roblin said: "At a meeting at the government house last night it was decided, in the event of the mother country becoming involved in actual hostilities to organize and equip a battalion of infantry, 1,000 strong, and offer it through the proper channels at Ottawa to the war authorities as a slight evidence of Manitoba's appreciation of being a part of the British empire."

## LORD KITCHENER STILL IN LONDON: MOVEMENTS WATCHED

London, Aug. 3.—The London morning papers are giving plentiful confirmation to the public to display a self-sacrificing spirit, to refrain from excitement and to avoid selfish actions, such as buying in large stores of provisions which would tend to drive up prices and lead to hardships for the poorer classes.

Lord Marshall Lord Kitchener, who was to return to the Egyptian post, is detained in London. According to reports from Egyptian capitals, Great Britain's decision on this point was awaited with the deepest anxiety, especially in Paris and St. Petersburg.

## Presentation By The EDMONTON CAPITAL

Willis J. Abbot, the versatile writer on international subjects and author of many books of history and travel, spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hands the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written. The result is a human interest story of this beautiful land and its people from the early days when Columbus tried to find a natural waterway from the Atlantic to the Pacific, down to the present time.

Special staff photographers made the hundreds of beautiful views which illustrate practically every page of this exhaustive book.

The well-known artist, E. J. Read, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially made paper.

The Panama Canal, the greatest engineering achievement of the world's history, cost more than

**\$400,000,000**

It links the two greatest oceans, and becomes the most important factor in peace and war. So where is the red-blooded inhabitant of this globe that does not feel vitally interested in it? Truly it is the wonder of this progressive age!
